Technical Management

A.G. Coombs

Focusing on the areas of Projects, Service, Advisory, and Technical Management, A.G. Coombs is a leader in the provision of 'whole of life' building services.

Teamwork and project management skills set the company apart.

Single-point solutions

By selecting A.G. Coombs as your specialist building services provider, you can be confident of an effective solution that manages costs, minimises risk and delivers the performance you require.

“What do you mean by single-point design-construct?”

Quite simply that the group will design, construct and commission the building services you need from a single point of responsibility. It's both cost and time efficient. Alternatively, we are very well known for adding value in the traditional project delivery role.

“To what does the company owe its success and reputation?”

High quality people remain the major strength of the A.G. Coombs Group, together with a long-term commitment to staff training and workplace safety. As we've always said, 'teamwork is the difference'.

“Why is 'whole of life' such an important consideration?”

With increasingly sophisticated building services and the need for sustainable buildings, the advantages of sourcing engineering systems design, project management, construction, ongoing maintenance and advisory support from a single provider are overwhelming. It is essential that systems are constructed and set up for effective ongoing operation and energy efficient performance.

“In which areas does A.G. Coombs specialise?”

In short: HVAC, Mechanical and Multi-Service Installations. Design and Construct HVAC. Project Management. Central Energy Plant. Building Automation and Control. Data Centres and Critical Environments. Industrial Ventilation. Industrial

Process Piping – Ferrous and Non Ferrous. Cleanrooms and Environmental Control Systems, Fire Control and Life Safety Systems. Balancing and Commissioning. And the list gets longer every year.

“Why should I consider A.G. Coombs for my next major building services job?”

As a market leader, the company is renowned for its project management skills and high levels of expertise in technically advanced projects under the most demanding time constraints. And as a privately owned company with a commitment to long-time customers, you'll find our service both personal and excellent.

“What happens if my small project gets in the way of a major multi-million dollar contract?”

It won't happen. We are structured and resourced to look after projects of all sizes and we retain capacity to assist valued clients. All areas of our business are vitally important to A.G. Coombs.

Underpinning A.G. Coombs' capability is over sixty years' experience in designing, constructing and servicing the systems that bring buildings to life – whether they are big or small, simple or complex.

Your project solution is only a phone call away. Contact A.G. Coombs with your project requirements and find out how we can help you.
